This report aims to provide comprehensive recommendations for updating Bangladesh's national framework to ensure sustainable development, social equity, and economic resilience. In this context, we will analyze current national strategies, identify gaps, and propose actionable steps for a progressive future.

Understanding the Current State of Bangladesh

Economic Growth and Challenges

Bangladesh has emerged as one of the fastest-growing economies in South Asia, with an average GDP growth rate of around 6-7% over recent years. The textile and garment industry remains the backbone of the economy, alongside remittances, agriculture, and burgeoning service sectors. However, economic growth has not been inclusive, with disparities in income, regional development, and employment opportunities. Challenges include infrastructure deficiencies, energy shortages, and vulnerabilities to climate change.

Social Development and Inclusivity

Progress in health, education, and social welfare has been notable, yet disparities persist, especially for marginalized groups such as rural populations, women, and ethnic minorities. Education quality and access remain inconsistent, and healthcare infrastructure requires significant upgrades. Social safety nets are improving but need expansion to address poverty and inequality effectively.

Environmental and Climate Concerns
